

How To Win A Cosmic War Confronting Radical Religions

If you ally obsession such a referred How To Win A Cosmic War Confronting Radical Religions book that will provide you worth, get the entirely best seller from us currently from several preferred authors. If you want to hilarious books, lots of novels, tale, jokes, and more fictions collections are furthermore launched, from best seller to one of the most current released.

You may not be perplexed to enjoy every book collections How To Win A Cosmic War Confronting Radical Religions that we will enormously offer. It is not going on for the costs. Its more or less what you infatuation currently. This How To Win A Cosmic War Confronting Radical Religions, as one of the most lively sellers here will completely be accompanied by the best options to review.

Tertiary Language Teacher-Researchers Between Ethics and Politics Chantal Crozet 2020-02-05 Bringing together a range of perspectives from tertiary language and culture teachers and researchers, this volume highlights the need for greater critical engagement with the question of language teacher identity, agency and responsibility in light of an ever changing global socio-political and cultural landscape. The book examines the ways in which various moral, ethical, and ideological dimensions increasingly inform language teaching practice for tertiary modern/foreign language teachers, both collectively as a profession but also at the individual level in everyday classroom situations. Employing a narrative inquiry research approach which combines brief autobiographical reflections with semi-structured interview data, the volume provides a comprehensive portrait of the processes ten teacher-researchers in Australia working across five different languages engage in as they seek to position themselves more purposefully within a critical, political and ethical framework of teaching practice. The book will serve as a springboard from which to promote greater understanding and discussion of the impact of globalisation and social justice corollaries within the field, as well as to mediate the gap between language teaching theory and practice, making this key reading for graduate students and researchers in intercultural communication, language teaching, and language teacher education.

Beyond Fundamentalism Reza Aslan 2010-04-06 "A very persuasive argument for the best way to counter jihadism" (The Washington Post) from the bestselling author of Zealot and host of Believer The wars in the Middle East have become religious wars in which God is believed to be directly engaged on behalf of one side against the other. The hijackers who attacked America on September 11, 2001, thought they were fighting in the name of God. According to award-winning writer and scholar of religions Reza Aslan, the United States, by infusing the War on Terror with its own religiously polarizing rhetoric, is fighting a similar war—a war that can't be won. Beyond Fundamentalism is both an in-depth study of the ideology fueling militants throughout the Muslim world and an exploration of religious violence in Judaism, Christianity, and Islam. At a time when religion and politics increasingly share the same vocabulary and function in the same sphere, Aslan writes that we must strip the conflicts of our world of their religious connotations and address the earthly grievances that always lie at its root. How do you win a religious war? By refusing to fight in one. Featuring new content and updated analysis • Originally published as How to Win a Cosmic War "[A] thoughtful analysis of America's War on Terror." —The New Yorker "Offers a very persuasive argument for the best way to counter jihadism."—The Washington Post "[Reza] Aslan dissects a complex subject (terrorism and globalization) and distills it with a mix of narrative writing, personal anecdotes, reportage and historical analysis."—San Francisco Chronicle "Aslan is not only a perspicuous, thoughtful interpreter of the Muslim world but also a subtle psychologist of the call to jihad."—Los Angeles Times "[A] meaty analysis of the rise of Jihadism . . . dispels common misconceptions of the War on Terror age."—San Jose Mercury News "It is Aslan's great gift to see things clearly, and to say them clearly, and in this important new work he offers us a way forward. He is prescriptive and passionate, and his book will make you think."—Jon Meacham, Pulitzer Prize-winning author of American Lion

The Beast and Babylon J.B. Whitelaw-Stevens 2017-07-06 The Beast and Babylon answers some age-

old questions about the two symbolic entities featured in the book of Revelation. These symbols have historically been typified as a revived Roman Empire, and its God-opposing religious counterparts that rise up (in Europe), prior to the Second Coming of Jesus Christ. In contrast, this informative and timely study reveals that the latter-day beast power rises out of not one, but out of three defunct previous empires in the Middle East; known via Daniel's metaphors as the lion, bear, and leopard kingdoms. It appears from Daniel 7:11-12, that long after the last manifestation of the Roman Empire is destroyed, these three dormant empires are revived for a season and a time. During their rejuvenation, they reappear in Revelation 13 and 17 in the form of a tripartite, seven-headed, political/religious beast power that emerges from the topographies of the ancient Grecian (leopard), Persian (bear), and Babylonian (lion) kingdoms. Furthermore, these combined territories encompass ten sovereign Islamic horn nations that were revealed after the Ottoman Empire was abolished ninety-five years ago. Today, many of these Islamic nations contain embedded terrorist groups whose fanatical Jihadist leaders are determined to resurrect a radical pan-Islamic Caliphate, by which to establish Sharia law throughout the World. To achieve these objectives, the latter-day nascent imperial beast power in conjunction with ten like-minded insurgent leaders must initiate a global Jihad to incite war on the people of God, and conspire to destroy a religious city called Mystery, Babylon the Great.

God Reza Aslan 2017-11-07 NEW YORK TIMES BESTSELLER • The bestselling author of *Zealot* and host of *Believer* explores humanity's quest to make sense of the divine in this concise and fascinating history of our understanding of God. In *Zealot*, Reza Aslan replaced the staid, well-worn portrayal of Jesus of Nazareth with a startling new image of the man in all his contradictions. In his new book, Aslan takes on a subject even more immense: God, writ large. In layered prose and with thoughtful, accessible scholarship, Aslan narrates the history of religion as a remarkably cohesive attempt to understand the divine by giving it human traits and emotions. According to Aslan, this innate desire to humanize God is hardwired in our brains, making it a central feature of nearly every religious tradition. As Aslan writes, "Whether we are aware of it or not, and regardless of whether we're believers or not, what the vast majority of us think about when we think about God is a divine version of ourselves." But this projection is not without consequences. We bestow upon God not just all that is good in human nature—our compassion, our thirst for justice—but all that is bad in it: our greed, our bigotry, our penchant for violence. All these qualities inform our religions, cultures, and governments. More than just a history of our understanding of God, this book is an attempt to get to the root of this humanizing impulse in order to develop a more universal spirituality. Whether you believe in one God, many gods, or no god at all, *God: A Human History* will challenge the way you think about the divine and its role in our everyday lives. Praise for *God* "Timely, riveting, enlightening and necessary."—HuffPost "Tantalizing . . . Driven by [Reza] Aslan's grace and curiosity, *God* . . . helps us pan out from our troubled times, while asking us to consider a more expansive view of the divine in contemporary life."—The Seattle Times "A fascinating exploration of the interaction of our humanity and God."—Pittsburgh Post-Gazette "[Aslan's] slim, yet ambitious book [is] the story of how humans have created God with a capital G, and it's thoroughly mind-blowing."—Los Angeles Review of Books "Aslan is a born storyteller, and there is much to enjoy in this intelligent survey."—San Francisco Chronicle

The Secular Landscape Kevin McCaffree 2017-02-07 This book proposes a comprehensive theory of the loss of religion in human societies, with a specific and substantive focus on the contemporary United States. Kevin McCaffree draws on a range of disciplines including sociology, psychology, anthropology, and history to explore topics such as the origin of religion, the role of religion in recent American history, the loss of religion, and how Americans are dealing with this loss. The book is not only richly theoretical but also empirical. Hundreds of scientific studies are cited, and new statistical analyses enhance its core arguments. What emerges is an integrative and illuminating theory of secularization.

12 Rules For Life Jordan B. Peterson 2019-08-19 Aktualisierte Neuauflage Wie können wir in der modernen Welt überleben? Bestsellerautor Jordan B. Peterson beantwortet diese Frage humorvoll, überraschend und informativ. Er erklärt, warum wir Kinder beim Skateboarden alleine lassen sollten, welches grausame Schicksal diejenigen ereilt, die alles allzu schnell kritisieren und warum wir Katzen, die wir auf der Straße antreffen, immer streicheln sollten. Doch was bitte erklärt uns das Nervensystem eines Hummers über unsere Erfolgchancen im Leben? Dr. Peterson diskutiert Begriffe wie Disziplin, Freiheit, Abenteuer und Verantwortung und kondensiert Wahrheit und Weisheit der Welt in 12 praktischen Lebensregeln. Der SPIEGEL-Bestseller jetzt in überarbeiteter Neuauflage.

God at War Mark Juergensmeyer 2020-05-05 For decades, Mark Juergensmeyer has been studying the rise of religious violence around the world, including groups like ISIS and Christian militias that have been

involved in acts of terrorism. Over the years he came to realize that war is the central image in the worldview of virtually every religious movement engaged in violent acts. Behind the moral justification of using violence are images of great confrontations of war on a transcendent scale. *God at War* explores the dark attraction between religion and warfare. Virtually every religious tradition leaves behind it a bloody trail of stories, legends, and images of war, and most wars call upon the divine for blessings in battle. This book finds the connection between religion and warfare in the alternative realities created in the human imagination in response to crises both personal and social. Based on the author's thirty years of field work interviewing activists involved in religious-related terrorist movements around the world, this book explains why desperate social conflict leads to images of war, and why invariably God is thought to be engaged in battle.

Peace Psychology in Australia Diane Bretherton 2012-01-13 This book is a case study of the development of peace psychology in Australia. While there is, in comparison to other countries, relatively little overt violence, Australia the nation was founded on the dispossession of Indigenous people, and their oppression continues today. *Peace Psychology in Australia* covers the most significant issues of peace and conflict in the country. It begins with a review of conflict resolution practices among Australia's ancient Indigenous cultures and succinctly captures topics of peace and conflict which the country has faced in the past 222 years since British settlement. The fast population growth, thriving multiculturalism, leadership in international affairs and environmental isolation make Australia a microcosm for the study of human conflicts and peace movements.

Neustart im Kopf Norman Doidge 2014-02-13 Unser Gehirn ist nicht – wie lange angenommen – eine unveränderliche Hardware. Es kann sich vielmehr auf verblüffende Weise umgestalten und sogar selbst reparieren. Norman Doidge verbindet faszinierende Einblicke in die neueste Forschung mit aufsehenerregenden Beispielen aus der Praxis: etwa eine Frau, deren eine Hirnhälfte die Funktionen eines ganzen Gehirns übernahm. Oder der Mann, dessen Gehirn nach einem Schlaganfall die Hirnströme in gesunde Hirnregionen »umleitet« und seinem gelähmten Arm die Bewegungsfähigkeit zurückgibt. All dies ermöglicht unser Gehirn, das stärker und anpassungsfähiger ist, als wir je dachten.

Religion and Violence Dominic Arcamone 2016-02-25 The aim of *Religion and Violence* is to engage dialectically key symbols of religiously motivated violence through the insights of Bernard Lonergan. Sociologists and psychologists argue the link between religion and violence, but religion is viewed more as part of the problem and not part of the solution to violence. Bernard Lonergan's insights have helped the author arrive at a number of conclusions regarding the link between religion and violence. He argues that there is a difference between distorted religion and genuine religion, between authenticity and inauthenticity of the subject. Distorted religion has the capacity to shape traditions in ways that justify violence, while genuine religion heals persons, helps them make different moral decisions when confronted with situations of conflict, and aims to explore new ways of understanding themselves as shaping history toward progress.

The Rise of the Civilizational State Christopher Coker 2019-03-05 In recent years culture has become the primary currency of politics – from the identity politics that characterized the 2016 American election to the pushback against Western universalism in much of the non-Western world. Much less noticed is the rise of a new political entity, the civilizational state. In this pioneering book, the renowned political philosopher Christopher Coker looks in depth at two countries that now claim this title: Xi Jinping's China and Vladimir Putin's Russia. He also discusses the Islamic caliphate, a virtual and aspirational civilizational state that is unlikely to fade despite the recent setbacks suffered by ISIS. The civilizational state, he contends, is an idea whose time has come. For, while civilizations themselves may not clash, civilizational states appear to be set on challenging the rules of the international order that the West takes for granted. China seems anxious to revise them, Russia to break them, while Islamists would like to throw away the rule book altogether. Coker argues that, when seen in the round, these challenges could be enough to give birth to a new post-liberal international order.

Gott Reza Aslan 2018-10-22 Wie die Menschen Gott entdeckten In Gott suchten die Menschen schon immer, was sie an sich selbst vermissten: Mitgefühl, Gerechtigkeit und Liebe. Aber in ihm begegnete ihnen auch, was sie an sich selbst fürchteten: Gewalt, Gier und Unberechenbarkeit. Doch wie entstand unser Bild von Gott? Reza Aslan erzählt ebenso spannend wie unterhaltsam die Religionsgeschichte der Menschheit, und er macht deutlich: Gott ist unsere Idee. Und wir haben es in der Hand, ob daraus noch eine gute wird. Mit zahlreichen Abbildungen

Kein Gott ausser Gott Reza Aslan 2006 Das Buch vermittelt die Geschichte des muslimischen Glaubens vom Propheten Muhammad bis zur Gegenwart. Durch Beispiele und Porträts bekommt der Leser einen

Eindruck von der 1. muslimischen Gemeinde in Medina, den Rivalitäten zwischen Sunniten und Schiiten oder der islamischen Mystik.

Religion and the New Atheism 2010-06-14 This book brings together eminent and rising scholars from religious studies, science, sociology of religion, sociology of science, philosophy, and theology in order to engage the new atheism and place it in the context of broader debates in these areas.

Competing Fundamentalisms Sathianathan Clarke 2017-03-29 Why do certain groups and individuals seek to do harm in the name of God? While studies often claim to hold the key to this frightening phenomenon, they seldom account for the crucial role that religious conviction plays, not just in radical Islam, but also in the fundamentalist branches of the world's two other largest religions: Christianity and Hinduism. As the first book to examine violent extremism in all three religions together, *Competing Fundamentalisms* draws on studies in sociology, psychology, culture, and economics while focusing on the central role of religious ideology to paint a richer portrait of this potent force in modern life. Clarke argues that the forces of globalization fuel the aggression of these movements to produce the competing feature of religious fundamentalisms, which have more in common with their counterparts across religious lines than they do with the members of their own religions. He proposes ways to deescalate religious violence in the service of peacemaking. Readers will gain important insights into how violent religious fundamentalism works in the world's three largest religions and learn new strategies for promoting peace in the context of contemporary interreligious conflict.

Die islamische Aufklärung Christopher de Bellaigue 2018-03-21 »Erhellend, großartig geschrieben, ein Buch, das uns hilft, das Verständnis zwischen islamischer Welt und Moderne zu verstehen.« Yuval Noah Harari, Autor von »Eine kurze Geschichte der Menschheit« Die islamische Aufklärung hat längst stattgefunden. In einer fulminanten Erzählung demontiert Christopher de Bellaigue die oft selbstgefällige westliche Sicht auf die arabische Welt. Auch in Ägypten, im Iran und der Türkei gab es nach 1800 eine breite Bewegung für Freiheit, Gleichheit und Demokratie und für einen weltlichen Staat, für Frauenrechte und Gewerkschaften, freie Presse und die Abschaffung der Sklaverei. In atemberaubender Geschwindigkeit modernisierten sich die arabischen Gesellschaften. Doch die Gegenaufklärung folgte auf dem Fuß, mit autokratischen Regimen und fundamentalistischem Terror. De Bellaigue schildert den Kampf zwischen Glaube und Vernunft und um eine neue muslimische Identität. Eine reiche, überraschende Geschichte, eine radikal neue Sicht auf den modernen Islam. »Eine ausgesprochen originelle und informative Studie über die Zusammenstöße zwischen dem Islam und der Moderne in Istanbul, Kairo und Teheran während der letzten zweihundert Jahre.« Orhan Pamuk »Christopher de Bellaigue gehört seit Langem schon zu den einflussreichsten und anregendsten Interpreten einiger von Angst und Vorurteil verstellter Realitäten. In »Die islamische Aufklärung« seziiert er den selbstgefälligen Gegensatz zwischen Islam und Moderne und enthüllt dabei eine faszinierende Welt: eine Welt, in der Menschen sich unter dem Druck der Geschichte ständig verändern, improvisieren und sich anpassen. Es ist genau das richtige Buch für unsere in Unordnung geratene Welt: zeitgemäß, dringlich und erhellend.« Pankaj Mishra »Zur rechten Zeit, tief sinnig und provokativ.« Peter Frankopan

Roots Of Religious Extremism, The: Understanding The Salafi Doctrine Of Al-wala' Wal Bara' Bin Ali Mohamed 2015-09-14 One of the issues in contemporary Islamic thought which has attracted considerable attention amongst Muslim scholars and within the Muslim community is the valid and appropriate attitude of Muslims to relationships with non-Muslims. A major source of confusion and controversy with regards to this relationship comes from the allegation that Muslims must reserve their love and loyalty for fellow Muslims, and reject and declare war on the rest of humanity — most acutely seen through the Islamic concept of Al-Wala' wal Bara' (WB) translated as "Loyalty and Disavowal", which appears to be central in the ideology of modern Salafism. This book investigates the dynamics and complexities of the concept of WB within modern Salafism and aims to understand the diverse interpretation of this concept; and how modern Salafis understand and apply the concept in contemporary religious, social and political settings. The book discovers that the complexities, diversities and disputes surrounding the concept in modern Salafism often revolve around issues of social, political and current realities. The significance of this book lies in the fact that comprehending modern Salafis' conception of WB, its realities and complexities has become an urgent priority in the lives of Muslims today.

The Muslim World Book Review 2010

Hand Over the Global Empires and the World Goes Free - 2012 Social Engineering Business Plan Gabriel Kullos

Terror in Our Time Ken Booth 2011-10-17 Written by two leading scholars, this book is an accessible

overview of the global political consequences of the 9/11 terror attacks. The War on Terror has defined the first decade of this century. It has been marked by the deaths of thousands of people, political turmoil, massive destruction, and intense fear. Regardless of the name it goes under, the long war on terror will continue to affect lives across the world. Its catalyst, 9/11, did not have to happen, nor did the character of the responses. This book offers a set of novel interpretations of how we got here, where we are, and where we should be heading. It is organised around twelve penetrating and readable essays, full of novel interpretations and succinct summaries of complex ideas and events. In their examination of those aspects of global order touched by terror, the authors argue that the dangers of international terrorism are not overblown. Future 9/11s are possible: so is a more just and law-governed world. Terrorism cannot be disinvented, but with more intelligent policies than have been on show these past ten years, it can be overcome and made politically anachronistic. This book will be essential reading for all students of terrorism studies, international security, war and conflict studies and IR in general, as well as of much interest to well-informed lay readers.

Mawlana Mawdudi and Political Islam Roy Jackson 2010-10-04 Mawlana Mawdudi was one of the most influential and important Islamic thinkers of the modern world, whose brand of political Islam has won widespread acceptance in South and South East Asia as well as the Middle East. He was not only an Islamic scholar, but also a journalist and political activist who founded the Jama'at-i-Islami, which has subsequently influenced the development of many Islamic movements and parties throughout the Muslim world. This book is the first to critically engage and assess his career and legacy within the wider context of political Islam. It includes coverage of his early life and influences, and examines his considerable influence in the contemporary Islamic world. The issues that were a concern for Mawdudi and continue to have resonance for our world today include such questions as the role of women in Islam, the possibilities for democracy in an Islamic state, the importance of jihad, and the moral and religious responsibility of the individual. Whilst focus is on Mawdudi's life and writings, this is placed within the wider context of topical, often contentious, Islamic thought. Providing an up-to-date and detailed critical study of Mawlana Mawdudi and many issues surrounding political Islam both in his time and today, this book will be an important text for scholars of Islamic Studies, Political Science and Philosophy.

Frankenstein oder Der moderne Prometheus Mary Shelley 2019-12-07

Der Weg in die Unfreiheit Timothy Snyder 2019-08-28 Der Autor des Weltbestsellers "Über Tyrannie" schreibt die Chronik einer über uns hereinbrechenden politischen Katastrophe - der Aufstieg autoritärer Regime in Russland, Europa und den USA. Timothy Snyder zeigt in seinem furchtlosen Buch, wie Putins Russland freie Wahlen manipuliert, Fake News verbreitet, Cyberangriffe startet, Schwule verfolgt und rechtsradikale Parteien finanziert - und warum es das tut. Er schildert die beängstigenden Kontakte zwischen russischen Oligarchen und Donald Trump, und er warnt uns vor den Konsequenzen: Wenn wir nicht endlich aufwachen, dann wird die freie Welt vielleicht schon bald Vergangenheit sein.

Nationalism and Islamism in the Kurdistan Region of Iraq Mohammad Salih Mustafa 2020-11-29

Exploring a new political phenomenon in the Middle East, this book studies the reconciliation of nationalism and Islamism by Islamic political parties in the context of nation states. Islamism in Kurdistan has become significantly framed by the politics of nationalism. Although the concept of religious nationalism has been discussed substantially before, this work highlights a new brand of religious nationalism that has emerged as a result of intertwining nationalism and Islamism. The focus of this study is on the development of religious nationalism in the continuously tumultuous region of the Middle East. The volume investigates whether Islamism in Kurdistan is limited by the politics of nationalism – which is an accentuated example for the whole Middle East region. By looking at the Kurdistan Islamic Union (KIU), the research studies Islamism in the Kurdistan Region to elaborate on this new type of politics. This is essentially due to the absence of a politically recognised nation state, which renders Kurds to be particularly susceptible to various manifestations of nationalism. Offering an account on the spread of the Muslim Brotherhood in the Kurdistan Region, this original research on Kurdish nationalism will be a key text for students and researchers interested in nationalism, Islamism and Middle East politics.

How to Win a Cosmic War Reza Aslan 2011-03-01 *Why do they hate us? An entire cottage industry has arisen to answer this question. But what no one has really figured out is, who exactly are they? Is it al-Qaeda? Islamic nationalists? The whole Muslim world? *HOW TO WIN A COSMIC WAR lays out, for the first time, a comprehensive definition of the movement behind and surrounding al-Qaeda and the like, a global ideology properly termed Jihadism. *Contrasting twenty-first-century religious extremism across Christianity, Judaism and Islam with its historical antecedents, Aslan demonstrates that while modern Jihadis may have legitimate social grievances - the suffering of the Palestinians, American support for

Arab dictators, the presence of foreign troops in Muslim lands, to name a few - they have no real goals or actual agenda. *So, what do the Jihadists want? Aslan's answer is: Nothing. The Jihadists have no earthly agenda; they are fighting a metaphysical conflict, a theological war. And ever since 9/11, we have unfortunately been fighting the same cosmic war, the war they want: the so-called 'War on Terror'. *How do we win a Cosmic War? By refusing to fight in one. And in this stunning new work, Aslan reveals surprising conclusions about how we can deal with this predicament.

Latino and Muslim in America Harold D. Morales 2018-02-01 Latino and Muslim in America examines how so-called "minority groups" are made, fragmented, and struggle for recognition. The U.S. is poised to become the first nation whose collective minorities outnumber the dominant population, and Latinos play no small role in this world-changing demographic shift. Even as many people view Latinos and Muslims as growing threats, Latino Muslims celebrate their intersecting identities in their daily lives and in their mediated representations. In this book, Harold D. Morales follows the lives of several Latino Muslim leaders from the 1970's to the present, tracing their efforts to organize and unify nationally in order to solidify the new identity group's place within the public sphere. Drawing on four years of media analysis, ethnographic and historical research, Morales demonstrates that Latinos embrace Islam within historically specific contexts that include distinctive immigration patterns and new laws, urban spaces, and media technologies that have increasingly brought Latinos and Muslims into contact. He positions this growing community as part of the mass exodus out of the Catholic Church, the growth of Islam, and the digitization of religion. Latino and Muslim in America explores the interactions between religion, race, and media to conclude that these three categories are inextricably entwined.

Die drei Sonnen Cixin Liu 2016-12-12 Die Science-Fiction-Sensation aus China China, Ende der 1960er-Jahre: Während im ganzen Land die Kulturrevolution tobt, beginnt eine kleine Gruppe von Astrophysikern, Politikkommissaren und Ingenieuren ein streng geheimes Forschungsprojekt. Ihre Aufgabe: Signale ins All zu senden und noch vor allen anderen Nationen Kontakt mit Außerirdischen aufzunehmen. Fünfzig Jahre später wird diese Vision Wirklichkeit – auf eine so erschreckende, umwälzende und globale Weise, dass dieser Kontakt das Schicksal der Menschheit für immer verändern wird.

The Fog of Peace Gabrielle Rifkind 2013-12-17 Institutions do not decide whom to destroy or to kill, whether to make peace or war; those decisions are the responsibility of individuals. This book argues that the most important aspect of conflict resolution is for antagonists to understand their opponents, their ambitions, their pains. Gabrielle Rifkind and Giandomenico Pico present two very different experiences of international relations – Rifkind as a psychotherapist now immersed in the politics of the Middle East, and Pico as a career diplomat with a successful record as a negotiator at the UN. Developing links between psychology and politics, the authors ask: should we talk to the enemy? What happens if the protagonists are nasty and brutish, tempting policy-makers to retaliate? How do nations find the capacity not to hit back, trapping themselves in endless cycles of violence? Presenting a unique combination of psychological theories, geopolitical realities and first-hand peace-making experience, this book sheds new light on some of the worst conflicts in the modern world and demonstrates, above all, how empathy can often be far more persuasive than the most fearsome weapons.

Ich und die Menschen Matt Haig 2014-04-01 In einer regnerischen Freitagnacht wird Andrew Martin, Professor für Mathematik in Cambridge, aufgegriffen, als er nackt eine Autobahn entlangwandert. Professor Martin ist nicht mehr er selbst. Ein Wesen mit überlegener Intelligenz und von einem weit entfernten Stern hat von ihm Besitz ergriffen. Dieser neue Andrew ist nicht begeistert von seiner neuen Existenz. Er hat eine denkbar negative Meinung von den Menschen. Jeder weiß schließlich, dass sie zu Egoismus, übermäßigem Ehrgeiz und Gewalttätigkeit neigen. Doch andererseits: Kann eine Lebensform, die Dinge wie Weißwein und Erdnussbutter erfunden hat, wirklich grundsätzlich und böse sein? Und was sind das für seltsame Gefühle, die ihn überkommen, wenn er Debussy hört oder Isobel, der Frau des Professors, in die Augen blickt?

'Militant Islam' vs. 'Islamic Militancy'? Klaus Hock

Der Krieg der Welten Herbert George Wells

Der Wassertänzer Ta-Nehisi Coates 2020-03-02 Bisher kannte Hiram Walker nichts als ein Leben in Ketten. Aufgewachsen in der Sklaverei, musste er als kleiner Junge miterleben, wie seine Mutter verkauft wurde und für immer verschwand. Doch sie hat ihm eine seltene Gabe vererbt. Als diese ihn vor dem Ertrinken rettet, beschließt er aus der Gefangenschaft zu fliehen. So beginnt für Hiram eine abenteuerliche Reise von den Tabakplantagen West Virginias über geheime Guerillazellen in der Wildnis des amerikanischen Südens nach Philadelphia, wo ihn ein völlig neues Leben in Freiheit zu erwarten

scheint. Doch zuvor muss er noch eine alte Rechnung begleichen und die Frau, die er liebt, und die, die ihn aufzog, in die Freiheit führen.

Sufis, Salafis and Islamists Sadek Hamid 2016-03-23 British Muslim activism has evolved constantly in recent decades. What have been its main groups and how do their leaders compete to attract followers? Which social and religious ideas from abroad are most influential? In this groundbreaking study, Sadek Hamid traces the evolution of Sufi, Salafi and Islamist activist groups in Britain, including The Young Muslims UK, Hizb ut-Tahrir, the Salafi JIMAS organisation and Traditional Islam Network. With reference to second-generation British Muslims especially, he explains how these groups gain and lose support, embrace and reject foreign ideologies, and succeed and fail to provide youth with compelling models of British Muslim identity. Analyzing historical and firsthand community research, Hamid gives a compelling account of the complexity that underlies reductionist media narratives of Islamic activism in Britain.

Zelot Reza Aslan 2013-12-06 Das Christentum verehrt Jesus von Nazaret als sanften Hirten, dessen Reich nicht von dieser Welt sei. Aber entspricht dieses Bild der historischen Realität? Kann es den grausamen Kreuzestod plausibel erklären? Der amerikanische Religionswissenschaftler Reza Aslan meint: nein. Sein Buch, das in den USA für einen Skandal sorgte, versucht zu ergründen, wer Jesus war, bevor es das Christentum gab. Es ist das fesselnde, brillant erzählte Porträt eines Mannes voller Widersprüche, einer Epoche voll religiöser Inbrunst und blutiger Kämpfe und einer Weltreligion im Werden.

Religion in Education Joyce Miller 2013 This volume explores numerous themes (including the influence of ethnography on religious education research and pedagogy, the interpretive approach to religious education, the relationship between research and classroom practice in religious education), providing a critique of contemporary religious education and exploring the implications of this critique for initial and continuing teacher education.

Der dunkle Wald Cixin Liu 2018-03-12 Invasion Der erste Kontakt mit einer außerirdischen Spezies hat die Menschheit in eine Krise gestürzt, denn die fremde Zivilisation hat sich Zugang zu jeglicher menschlicher Informationstechnologie verschafft. Der einzige Informationsspeicher, der noch vor den Aliens geschützt ist, ist das menschliche Gehirn, weshalb das Wallfacer- Projekt ins Leben gerufen wird: Vier Wissenschaftler sollen die ultimative Verteidigungsstrategie gegen die Aliens ausarbeiten - doch können sie einander trauen?

Library Journal 2008

How to Win a Cosmic War Reza Aslan 2009 *Why do they hate us? An entire cottage industry has arisen to answer this question. But what no one has really figured out is, who exactly are they? Is it al-Qaeda? Islamic nationalists? The whole Muslim world? *HOW TO WIN A COSMIC WAR lays out, for the first time, a comprehensive definition of the movement behind and surrounding al-Qaeda and the like, a global ideology properly termed Jihadism. *Contrasting twenty-first-century religious extremism across Christianity, Judaism and Islam with its historical antecedents, Aslan demonstrates that while modern Jihadis may have legitimate social grievances - the suffering of the Palestinians, American support for Arab dictators, the presence of foreign troops in Muslim lands, to name a few - they have no real goals or actual agenda. *So, what do the Jihadists want? Aslan's answer is: Nothing. The Jihadists have no earthly agenda; they are fighting a metaphysical conflict, a theological war. And in this stunning new work, Aslan reveals surprising conclusions about how we can deal with this predicament.

The Changing Face of Terrorism Benjamin Cole 2010-12-03 Chemical, Biological, Radiological and Nuclear (CBRN), terrorism and the 'war on terror' are major features of international relations and global concern. Terrorist threats and actual violence have become increasingly dangerous and lethal since the 1970s. However, the attacks on the World Trade Center and the Pentagon on 11 September 2001 heralded a new era in terrorist action and were the culmination of a terror campaign against American targets world-wide. "The Changing Face of Terrorism" evaluates the continuing threat and counter-measures since 9/11 and into the 21st century. It is a sober and measured evaluation of the CBRN threat and argues that continuing terror attacks are inevitable and the 'war on terror' will be a continuing feature in international politics and military action. Benjamin Cole shows how effective counter-terrorist measures must be measured and based not only on effective police and military intelligence and action but on careful evaluation of the politics, motivations, scientific and technical abilities of groups - no terrorist group has made a nuclear device - and religious and personal motivation.

Das Phänomen Krieg Ralph Rotte 2019-01-31 Dieses Buch zeichnet die Entwicklungsgeschichte

strategischen Denkens von Clausewitz bis zu den „neuen Kriegen“ des 21. Jahrhunderts nach. Dabei verfolgt es eine doppelte Zielsetzung: Zum Einen soll der analytische Mehrwert strategietheoretischer Beiträge in Bezug auf Erklärung und Analyse kriegerischer Gewalt sowie die Erarbeitung von handlungsleitenden Strategien für Prävention und Bewältigung kriegerischer Konflikte anhand exemplarischer Fallbeispiele demonstriert werden. Zum Anderen versteht sich das Buch insgesamt als Plädoyer für eine strategische Perspektive als Grundlage staatlicher und internationaler Sicherheitspolitik, die bisher trotz des offensichtlich vorhandenen Bedarfs an strategischer Orientierung in Deutschland nur in unzureichendem Maße in der Debatte vertreten ist.
