Whom We Shall Welcome Danielle Battisti 2019-03-05 Whom We Shall Welcome examines World War II immigration of Italians to the United States, an under-studied period in Italian immigration history. Danielle Battisti looks at efforts by Italian American organizations to foster Italian immigration along with the lobbying efforts of Italian Americans to change the quota laws. While Italian Americans (and other white ethnics) had attained virtual political and social equality with many other groups of older-stock Americans by the end of the war, Italians continued to be classified as undesirable immigrants. Her work is an important contribution toward understanding the construction of Italian American racial/ethnic identity in this period, the role of ethnic groups in U.S. foreign policy in the Cold War era, and the history of the liberal immigration reform movement that led to the 1965 Immigration Act. Whom We Shall Welcome makes significant contributions to histories of migration and ethnicity, post-World War II liberalism, and immigration policy.

Issues of Gender and Sexual Orientation in Humanitarian Emergencies Larry W. Roeder 2014-08-05 Natural and manmade disasters do not affect everyone equally, especially when resources are not equally accessible. Girls and women in particular face heightened risks of violence and abuse and many countries bar female-headed households from receiving aid. Across the globe, a wider understanding of gender issues is needed to craft effective policies and carry out equitable practices in disaster planning and response. The first full-length reference of its kind, Issues of Gender and Sexual Orientation in Humanitarian Emergencies brings together data pinpointing disparities with practical suggestions toward improving post-event adjustment for all. Arguing forcefully for an egalitarian lens in humanitarian aid, the book offers guidelines that governmental agencies and NGOs alike can implement at all levels of preventive and relief efforts to better assist victims and minimize further trauma. Salient areas covered include gender differences in the effects of disasters on children and adolescents, the heightened risk of domestic violence in disasters and challenges facing the LGBTI community in relocation. In addition, examples from a cyclone event in Australia relate the experiences of victims, organizations and aid workers to larger social issues. Included among the topics: Gender and the impact of disaster on youth. Personal network structure and gendered well-being in disaster and relocation. Sexual and gender minorities in humanitarian emergencies. Gender as hazard in disaster planning and response. The relationship of disaster and domestic violence. The impact of disasters on workers and services. Addressing a major threat to public and social health, Issues of Gender and Sexual Orientation in Humanitarian Emergencies is an essential sourcebook for researchers and professionals working with NGOs, disaster management, domestic violence, humanitarian relief and refugee health.

Liber Amicorum Marius Paul Olivier 2020-12-10 Though some may categorise this work as a memorial publication, this book of friends is truly a celebratory publication by colleagues from Africa and beyond who had

the privilege to know Edwell and Mathias personally. It is a tribute to the life and work of two individuals that each made a unique contribution to social justice, law and its development. As evidenced by the Tributes and Lists of Publications contained herein, both Edwell and Nyenti (as they were colloquially known) were productive scholars but they leave a legacy that extends beyond the academic realm to that of friendship and shared humanity.

The 1951 Convention Relating to the Status of Refugees and Its 1967 Protocol Andreas Zimmermann 2011-01-27 '.. this work is intended to provide an in-depth analysis of each and every provision of the 1951 Convention and its 1967 Protocol. Special contributions on topics that cut across various provisions or that provide an overview over developments in certain regions of the world complement this Commentary.'

Nordic Folk Churches Bjvrn Ryman 2005-08-30 Four Nordic scholars provide historical context for contemporary developments in the folk churches of Denmark, Finland, Norway, and Sweden, respectively, devoting a chapter to each. Other chapters address major issues of concern both shared by, and unique to, their churches.

Particularly fascinating are these churches' differing roles on the political stage during World War II and the Cold War, their adaptation to the modern welfare state, their handling of theological controversies such as the ordination of women and same-sex unions, and their crucial contributions to the ecumenical movement.

Social Welfare in Africa John Dixon 2016-03-22 First published in 1987, this book analyses social welfare in the major countries of Africa, at that time. For each country it considers the ideological framework underlying the social welfare system and describes the historical development of both the system and the political and socio-economic context. Each chapter looks at the structure and administration of the systems in place and how these are financed. Contributions examine the nature of the different parts of the welfare system, surveying social security, personal social services, and the treatment of the following key target groups: the aged; those with disabilities and handicaps; children and youth; disadvantaged families; the unemployed; and the sick and injured. Each chapter concludes with an assessment of the effectiveness of the system considered. In this book, particular attention is paid to the role of foreign aid agencies and to missionaries, and to the special problems of poverty and famine in Africa.

Historical Dictionary of Refugee and Disaster Relief Organizations Robert F. Gorman 2000 The dictionary provides A-Z entries on both natural and man-made disasters, intergovernmental and nongovernmental organizations, basic concepts, and people who have played a notable role. Also included is an extensive list of acronyms and abbreviations to sort out the various organizations. The bibliography directs readers to a plethora of books, articles, and government documents on the same topic.

Social Protection in Developing Countries Katja Bender 2013-09-02 Providing universal access to social protection and health systems for all members of society, including the poor and vulnerable, is increasingly considered crucial to international development debates. This is the first book to explore from an interdisciplinary and global perspective the reforms of social protection systems introduced in recent years by many governments of low and middle-income countries. Although a growing body of literature has been concerned with the design and impact of social protection, less attention has been directed towards analyzing and explaining these reform processes themselves. Through case studies of African, Asian, and Latin American countries, this book examines the 'global phenomenon' of recent social protection reforms in low and middle-income areas, and how it differs across countries both in terms of scope and speed of institutional change. Exploring the major domestic and international factors affecting the political feasibility of social protection reform, the book outlines the successes and failures of recent reform initiatives. This invaluable book combines contributions from both

academics and practitioner experts to give students, researchers and practitioners in the fields of social security, economics, law and political science an in-depth understanding of political reform processes in developing countries.

In a Sea of Bitterness R. Keith Schoppa 2011-12-12 The Japanese invasion of Shanghai in 1937 led 30 million Chinese to flee their homes in terror, and live—in the words of artist and writer Feng Zikai—“in a sea of bitterness” as refugees. Keith Schoppa paints a comprehensive picture of the refugee experience in one province, Zhejiang, where the Japanese launched notorious campaigns.

Advancing Refugee Protection in South Africa Jeff Handmaker 2008 Divided into three thematic parts to guide the reader, this important volume documents the development and implementation of refugee policy in South Africa over a 10-year period from 1996 until 2006. In doing so, it addresses issues of detention, gender, children and health as well as welfare policies for refugees. The contributions, all written by academics and practitioners of refugee protection, vividly illustrate the tangible shifts and concerns of a process that is not only aimed at establishing policies and legislation but also practices concerning refugees.

Democratising Development Peris Jones 2005 What are the prospects and means of achieving development through a democratic politics of socio-economic rights? Starting from the position that socio-economic rights are as legally and normatively valid as civil and political rights, this anthology explores the politics of acquiring and transforming socio-economic rights in South Africa. The post-apartheid South African experience shows that democracy is not a guarantee for elimination of poverty and inequality, but also that democratic institutions and politics may provide means for addressing past and present injustices. Thus it is argued that democratic politics of socio-economic rights democratises development while also developing democracy.
